Hi Warren, per your request.

I contacted the Santa Clara Pueblo representative (Mr. Gilbert Gutierrez, field supervisor, Santa Clara Pueblo) via phone 7/3/2011 and informed him that EPA would remove all air sample monitors on Santa Clara Lands before noon on 7/4/2011, also the Santa Clara Pueblo Lookout location air sample monitor was removed 7/3/2011 because of loss of ac power.

I attempted to contact Mr. Chris Moquino, Tribal Administrator, for San Ildefonso Pueblo but only obtained his voice messaging service, I left Mr. Moquino a message informing him that the air sample monitor was removed on 7/3/2011. I will continue to contact Mr. Moquino, to make sure they received my message.

Please contact me should you need anything.

Michael Ortiz, Chief
Radiation Control Bureau
NMED/EPD
